EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Erin C. Ming (Reg. No. 47,797) on May 15, 2007.

3. The application has been amended as follows:

In the specification

In page 15, please replace the 2nd paragraph (beginning on line 9 and ending on line 21) with the following paragraph below:

--A method and system has been disclosed for more efficiently preparing IP packets for transmission are disclosed. The present invention may be embodied completely or partially in a software program executable on a processor. Software written according to the present invention is to be stored in some form of computer-readable medium, including computer-readable storage medium, such as memory or CD-ROM, and computer-readable transmission medium, such as a computer-readable signal to be transmitted over a network, and executed by a processor. Alternatively, the present invention may be embodied completely or partially in hardware circuitry such as a fixed

function state machine. Although the present invention has been described in accordance with the embodiments shown, one of ordinary skill in the art will readily recognize that there could be variations to the embodiments and those variations would be within the spirit and scope of the present invention. Accordingly, many modifications may be made by one of ordinary skill in the art without departing from the spirit and scope of the appended claims.--

In the claims

Claim 20

In line 1, after the phrase "A computer-readable" please insert the following --storage--.

Allowable Subject Matter

4. Claims 5, 8, 14, 17, and 20 are allowed.
5. The following is an examiner's statement of reason for allowance:

The cited prior arts fail to disclose or suggest a method for compressing data for transmission using asynchronous transfer mode (ATM) including a first and second end of each of the plurality of segments, representing the first end of a segment of the plurality of segments with a partition compression code word which represent a partition command sequence, the first end being a boundary of the ATM cell, and ATM PDU, and IP packet, and providing a compound compression code word to represent the partition

command sequence and another portion of the segment, the partition command sequence representing the first end of the segment, and further in conjunction with all the other limitations in the claim.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nghi V. Tran whose telephone number is (571) 272-4067. The examiner can normally be reached on Monday-Friday.
